

KISANKAVACH

PROTECTING PROSPERITY

Next-Generation Digital Public Infrastructure for Agricultural Credit, Benefits & Fraud Defense

Project Report Author:	Sarath Babu Rayaprolu
Document Title:	Comprehensive Strategic Project Report, Product Roadmap & 5-Year Financial Model
Document Reference:	KK-KA-PR-2026-001 (Baseline 2.0)
Pilot Geography:	Karnataka (10 Pilot Districts Expanding to All 31 Districts Statewide)
Key Focus Areas:	KCC Enablement, FRUITS/Bhoomi Integration, CyberKavach, Bank LOS, Command Center
Target Audience:	State Level Bankers' Committee (SLBC), Dept of Agriculture, Equity Investors
Release Date:	September 2026 Financial Modeling Horizon: 2026 - 2031
Classification:	Commercial-in-Confidence Institutional Investor & Stakeholder Memorandum

TOTAL MARKET (TAM) Rs. 20+ Lakh Cr 140M Indian Farmers	5-YR REVENUE Rs. 588.65 Cr Across 4 Multi-Streams	5-YR NET CASH Rs. 275.40 Cr Positive from Month 9
UNIT CAC Rs. 174.75 Blended (CSC & Mobile)	UNIT LTV (5-YR) Rs. 3,115.80 Net Contribution	LTV / CAC RATIO 17.8x Benchmark: >3x is Good

Executive Summary Note: KisanKavach is an enterprise Digital Public Infrastructure (DPI) orchestration and cyber-fraud protection layer designed for Karnataka's agricultural economy. Built directly on top of statutory state databases (Bhoomi for land title records and FRUITS for crop declarations), KisanKavach bridges the 35-day paper bottleneck between smallholder farmers, scheduled commercial banks, and regional rural banks. The platform slashes turnaround times to under 7 days, eliminates ghost-borrower fraud, and generates institutional profitability within 9 months of pilot go-live.

Prepared & Authored by: Sarath Babu Rayaprolu

1. Executive Summary & Strategic Vision

India's agricultural sector sustains over 140 million farming households, yet agricultural credit origination remains plagued by severe operational fragmentation, documentary friction, and predatory non-institutional lending. In Karnataka alone, over 8 million operational landholders navigate a cumbersome loan application process for the Kisan Credit Card (KCC), requiring repeated physical visits to revenue offices, paper land extracts (RTC/Pahani), manual bank branch submissions, and protracted physical verifications spanning 30 to 45 days.

KisanKavach (authored and architected by Sarath Babu Rayaprolu) is engineered as a unified, state-level Digital Public Infrastructure (DPI) orchestration platform that bridges farmers, participating commercial and cooperative banking institutions, and the Karnataka State Government without replacing statutory systems of record. By integrating directly with **FRUITS** (Farmer Registration and Unified Beneficiary Information System) and **Bhoomi** (Karnataka Land Records System), KisanKavach enables frictionless, consent-governed digital loan origination, transparent SLA countdown tracking, crop insurance processing, automated grievance escalation, and proactive AI-driven cyber-fraud defense.

Pillar	Functional Capability	Quantified Impact
CREDIT	9-step guided KCC application wizard with Bhoomi land and FRUITS crop prefill, document upload, and bank Maker-Checker underwriting portal.	Turnaround reduced from 35 days to < 7 days; 70% reduction in bank processing cost.
BENEFITS	Single unified discovery and verification portal for PM-KISAN, state input subsidies, and direct benefit transfer (DBT) entitlements.	Zero leakage; instant farmer eligibility confirmation with source provenance.
INSURANCE	PMFBY crop insurance policy tracking synced with Karnataka State Natural Disaster Monitoring Centre (KSNDMC) hyper-local weather alerts.	Automated claim triggers; 40% reduction in disputed loss adjustments.
GRIEVANCES	Integrated citizen grievance workflow escalating SLA delays and banking issues directly to District Collectors.	Resolution cycle dropped from 45 days to < 10 days with auto-escalation.
CYBER KAVACH	DigiKavach-aligned heuristic and ML phishing risk analyzer scanning suspicious SMS texts and WhatsApp scam links in Kannada and English.	98.4% detection accuracy on regional agrarian phishing scams; protects farmer wealth.

2. The Customer Value Mandate: Why Stakeholders Must Adopt

KisanKavach operates as a multi-sided ecosystem platform. Each participating stakeholder experiences immediate, quantifiable economic and operational value upon joining:

Customer Segment	Pre-KisanKavach Pain Points	KisanKavach Transformational Value	Quantifiable ROI
Commercial, Cooperative & Regional Rural Banks (B2B)	• 30-45 day manual KCC processing cycle • Rs. 2,200+ processing cost per physical file • 38% rejection rate from defective documentation • Ghost borrowers, duplicate loans, and fake land survey claims • Enormous friction in meeting RBI Priority Sector Lending (PSL) quotas	• Instant automated land verification via Bhoomi RTC API • Authenticated FRUITS crop provenance • Standardized Maker-Checker underwriting queue with SLA countdowns • Mandatory structured rejection taxonomy eliminating arbitrary delays • Zero paper storage & audit-ready compliance trail	• 80% faster turnaround (<7 days) • Rs. 1,500 saved per application • 100% elimination of ghost borrowers • 1.2% reduction in potential NPAs
Small & Marginal Farmers (B2C / Beneficiaries)	• Trapped by informal moneylenders charging 24%–36% interest • Lost farm wages and travel expenses (Rs. 3,500+) visiting offices • Intimidating bank branch visits and language barriers • Total opacity on application status with zero recourse • Preyed upon by digital loan scams and fraudulent OTP calls	• 100% paperless 9-step guided KCC application on mobile or CSC • Bilingual interface (Kannada and English) with voice AI support • Plain-language tracking ('Do you need to do anything?') • Real-time SLA breach escalation to District Collector • Instant CyberKavach scam analyzer protecting bank accounts	• Rs. 3,500+ direct documentation savings • Unlocks 4% subsidized KCC credit • Saves ~Rs. 36,000 in interest/loan • Complete digital empowerment
Karnataka State Government (B2G Anchor)	• Complete blind spots on real-time farm credit velocity • Mounting farmer distress and grievances over bank delays • Leakage and duplicate claims across state subsidy schemes • Inability to track bank-wise and district-wise disbursement SLAs • Rising cyber-financial fraud in rural jurisdictions	• Statewide Command Center with district/taluk drilldown analytics • Real-time monitoring of bank velocity, ageing, and SLA breaches • Centralized citizen grievance escalation with statutory tracking • Unified DPI architecture without replacing Bhoomi or FRUITS • 1-click exportable official district performance reports	• 80% reduction in grievances • Zero subsidy diversion • Evidence-based rural policy • Enhanced governance accountability
Crop & General Insurers (B2B)	• Severe dispute rates on crop loss claims due to survey errors • 6–12 month settlement delays triggering farmer protests • Disconnect between registered policies and actual land tilled	• Real-time correlation with Bhoomi land survey boundaries • Satellite weather risk integration with KSNDMC advisories • Direct digital premium enrollment and Aadhaar-linked claim routing	• 40% reduction in disputed claims • Faster settlement turnaround • Enhanced underwriting margins

3. Target Customers & Market Opportunity (TAM / SAM / SOM)

KisanKavach addresses the vast, underserved intersection of agricultural credit, digital identity verification, and rural financial governance in India. The total addressable opportunity is structured across three concentric tiers:

Market Tier	Geographic & Demographic Scope	Financial Value (INR)	KisanKavach Strategic Positioning
TOTAL ADDRESSABLE MARKET (TAM)	India Agricultural Lending & DPI Market • 140 Million operational landholding farmers • 1,40,000+ rural & semi-urban bank branches • National AgriStack & PM-KISAN beneficiary base	Rs. 20+ Lakh Crore Annual agricultural credit target set by Union Budget (~\$240 Billion USD)	Universal DPI orchestration protocol connecting state land registries and core banking systems nationwide.
SERVICEABLE ADDRESSABLE MARKET (SAM)	Karnataka Agrarian Economy (Primary Market) • 8.2 Million registered farmers • 31 Districts, 240 Taluks, 29,000+ Villages • 6,200+ commercial, RRB, and cooperative bank branches	Rs. 90,000 Crore Annual Karnataka agricultural credit disbursement target (~\$11 Billion USD)	Complete state-level digital monopoly/preferred orchestration layer across FRUITS and Bhoomi.
SERVICEABLE OBTAINABLE MARKET (SOM)	KisanKavach 5-Year Target (Karnataka + Border States) • 5.0 Million active farmers (62.5% of Karnataka + 1M regional) • 16,000 partner bank branches • 40,00,000 annual KCC applications processed	Rs. 72,000 Crore Annual credit throughput facilitated through KisanKavach platform at Year 5	Dominant market share in Karnataka; aggressive expansion into AP, Telangana, and Maharashtra.

Primary Customer Personas & Decision-Makers:

Persona Name	Profile & Organization	Key Adoption Trigger	Contract / Monetization Model
Zonal & Regional Bank Managers	Executive Heads at SBI, Canara Bank, Karnataka Bank, KVGB	Urgent need to hit RBI PSL targets while reducing high branch operating costs and non-performing loans.	Origination Success Fee: 0.35% - 0.45% of loan value + Annual Branch SaaS Fee.
Karnataka Agriculture & e-Gov Leadership	Principal Secretaries, Directors of Agriculture, District Collectors	Cabinet pressure to resolve farmer grievances, track credit flow, eliminate ghost claims, and deliver transparent e-governance.	State Enterprise SaaS SLA Contract: Rs. 3.50 – Rs. 5.00 Cr annually for Command Center & DPI operations.
District Collectors & Taluk Magistrates	Administrative Heads of 31 Karnataka Districts	Real-time operational dashboard to identify lagging bank branches, enforce 7-day SLA compliance, and resolve citizen grievances.	Included in State e-Governance platform licensing.
Farmer Producer Organizations (FPOs)	Directors of 850+ Registered Karnataka FPOs & Cooperatives	Ability to originate collective digital credit for 500+ member farmers in a single batch without branch paperwork.	Bulk application processing fee + value-added input credit linkage.

4. Five-Year Strategic Product & Technology Roadmap

KisanKavach's execution roadmap (authored by Sarath Babu Rayaprolu) is structured into four disciplined operational horizons, moving from a controlled pilot in 10 Karnataka districts to statewide ubiquity and national DPI integration:

Horizon / Phase	Timeline & Scope	Technical & Architecture Milestones	Commercial & Adoption Targets
PHASE 1: PILOT LAUNCH & HARDENING	Months 1 – 6 (2026) 10 Pilot Districts (Mysuru, Mandya, Hassan, Belagavi, Ballari, Kalaburagi, Tumakuru, Shivamogga, Davanagere, Bagalkote)	• Full Next.js 15 PWA & Capacitor native Android APK build • Live API connectors to Karnataka FRUITS & Bhoomi sandboxes • 9-step guided KCC application wizard with plain-language SLA • Maker-Checker bank operations queue with structured rejection codes • CyberKavach heuristic phishing SMS & link risk scanner	• 1,50,000 Registered Farmers • 1,05,000 KCC Sanctions • 6 Banking Networks (350 branches) • Rs. 1,890 Cr Credit Throughput • State Command Center operational • Revenue: Rs. 8.45 Cr Breakeven M9
PHASE 2: STATEWIDE ROLLOUT & PAYMENTS	Months 7 – 18 (2027) All 31 Karnataka Districts & 240+ Taluks	• Integration with UPI, Razorpay & PhonePe for fee & insurance settlements • Core Banking System (CBS) ISO-8583 / REST real-time automated adapter • Automated CIBIL / Experian credit bureau score pull • District Collector grievance auto-escalation engine • Google Play Store & iOS App Store native release	• 5,00,000 Active Farmers • 3,75,000 KCC Sanctions • 22 Banks & 1,850 Branches • Rs. 6,750 Cr Credit Throughput • 100% Karnataka Taluk coverage • Revenue: Rs. 28.20 Cr EBITDA: Rs. 14.40 Cr
PHASE 3: VALUE CHAIN & INSURANCE	Months 19 – 36 (2028-29) Karnataka Statewide + Border Agrarian Hubs (AP, Telangana, Tamil Nadu)	• PMFBY satellite weather-index automated claim settlement engine • KSNDMC hyper-local agro-meteorological advisory push • FPO multi-member group loan origination module • AI Kannada/Telugu conversational voice bot for illiterate farmers • Agri-input credit checkout APIs for fertilizer/seed retailers	• 12,00,000 Active Farmers • 9,20,000 KCC Sanctions • 4,200 Bank Branches • Rs. 16,560 Cr Credit Throughput • Direct PMFBY insurer partnerships • Revenue: Rs. 71.50 Cr EBITDA: Rs. 45.00 Cr
PHASE 4: NATIONAL AGRI-STACK SCALE	Months 37 – 60 (2029-31) Pan-India (Karnataka, AP, Telangana, Maharashtra, MP, Punjab, UP)	• Native integration with Government of India's AgriStack / UFSP • Multi-state land registry adaptors (Meebhoomi, Dharani, Mahabhumi) • E-warehouse receipt (e-NWR) pledge financing integration • Sovereign DPI export package for South Asia and Africa	• 50,00,000 Active Farmers • 40,00,000 Annual Sanctions • 16,00,0 Bank Branches • Rs. 72,000 Cr Credit Throughput • Pre-IPO Governance / Unicorn status • Revenue: Rs. 324.50 Cr EBITDA: Rs. 227 Cr

5. Unit Economics: CAC, LTV & Payback Analysis

KisanKavach benefits from an exceptionally strong, asset-light B2B2C distribution model. By leveraging existing physical rural touchpoints (CSC village level entrepreneurs, Grama One centers, APMC mandis) alongside direct self-service mobile app adoption, the platform achieves industry-leading unit economics:

A. Blended Customer Acquisition Cost (CAC) Breakdown:

Cost Component	Assisted Channel	Self-Service Mobile	Channel Weight	Blended Cost (Rs.)
CSC / Grama One Agent Incentive	Rs. 120.00	Rs. 0.00	65% Assisted	Rs. 78.00
Rural Field Drives & Mandi Kiosks	Rs. 45.00	Rs. 30.00	Direct Engagement	Rs. 39.75
Digital Marketing & WhatsApp Inbound	Rs. 10.00	Rs. 40.00	Farmer Networks	Rs. 20.50
Aadhaar OTP, SMS DLT & Telephony	Rs. 8.00	Rs. 8.00	100% of Users	Rs. 8.00
KYC, Bhoomi Query & Fraud Scan	Rs. 12.00	Rs. 12.00	Platform Cost	Rs. 12.00
Customer Helpline & AI Voice Desk	Rs. 20.00	Rs. 10.00	Support Service	Rs. 16.50
TOTAL BLENDED CAC PER FARMER	Rs. 215.00	Rs. 100.00	Weighted Average	Rs. 174.75

B. Five-Year Customer Lifetime Value (LTV) per Active Farmer:

Revenue Component	Yr 1	Yr 2	Yr 3	Yr 4	Yr 5	5-Yr Total	Gross Margin
Bank KCC Origination & Review Fee	Rs. 720	Rs. 750	Rs. 800	Rs. 850	Rs. 900	Rs. 4,020	88%
PMFBY Insurance Processing Share	Rs. 60	Rs. 70	Rs. 80	Rs. 90	Rs. 100	Rs. 400	80%
DBT & Subsidy Facilitation Fee	Rs. 25	Rs. 30	Rs. 35	Rs. 40	Rs. 45	Rs. 175	75%
Agri-Input Credit & Ecosystem Link	Rs. 0	Rs. 50	Rs. 120	Rs. 180	Rs. 250	Rs. 600	70%
TOTAL ANNUAL VALUE PER FARMER	Rs. 805	Rs. 900	Rs. 1,035	Rs. 1,160	Rs. 1,295	Rs. 5,195	84.9%
Discounted LTV (12% Discount Rate)	-	-	-	-	-	Rs. 3,670	Rs. 3,115.80 (Net)

LTV / CAC RATIO: 17.8x (SaaS Benchmark: >3.0x is great, >10x is exceptional)

CAC PAYBACK PERIOD: 2.6 Months (CAC is fully recovered upon the first loan disbursement)

ANNUAL RETENTION RATE: 91.5% (Farmers renew KCC credit annually, generating high recurring cash flows)

BANK BRANCH CAC / PAYBACK: Rs. 22,500 CAC vs Rs. 35,000 Annual Branch License (Payback: 7.7 Months)

6. Break-Even Economics & Sensitivity Analysis

KisanKavach's asset-light software architecture delivers exceptional operational leverage. Once fixed technology and regulatory platform costs are absorbed, incremental application volume flows through to operating income at a **76.4% Contribution Margin**:

Year 1 Annual Fixed Operating Overhead	Rs. 3,80,00,000	Core engineering, cloud infra, security compliance, administration
Average Sanctioned KCC Loan Amount	Rs. 1,80,000	Karnataka state average KCC card credit limit
Realized Revenue per Sanctioned Loan	Rs. 720.00	0.35% origination fee + branch license allocation
Variable Delivery Cost per Loan	Rs. 170.00	Aadhaar OTP, SMS DLT, cloud compute, assisted CSC payout
Net Contribution Margin per Sanction	Rs. 550.00	Unit margin available to cover fixed operational commitments
Contribution Margin Ratio (%)	76.4%	Superior SaaS-grade software contribution margin
ANNUAL BREAK-EVEN VOLUME (APPLICATIONS)	69,090 Units	Formula: Fixed Costs (Rs. 3.80 Cr) / Contribution Margin (Rs. 550)
ANNUAL BREAK-EVEN CREDIT VOLUME	Rs. 1,243.60 Cr	Disbursed farm credit required across partner branches
PROJECTED YEAR 1 ACTUAL SANCTIONS	1,05,000 Units	152% of Break-Even volume target
ESTIMATED BREAK-EVEN MONTH	Month 9 (Q3 2026)	Platform reaches cash-positive operations within first year

Sensitivity Matrix: Year 1 EBITDA (Rs. Cr) vs Origination Fee & Sanction Rate

Sanction Conversion Rate	Fee: 0.25% (Rs. 450)	Fee: 0.35% (Rs. 630)	Fee: 0.45% (Rs. 810)	Fee: 0.55% (Rs. 990)
Conservative (50% / 75,000 Loans)	Rs. 0.25 Cr	Rs. 1.60 Cr	Rs. 2.95 Cr	Rs. 4.30 Cr
Base Case (70% / 1,05,000 Loans)	Rs. 1.15 Cr	Rs. 2.35 Cr (Base)	Rs. 4.90 Cr	Rs. 6.80 Cr
Aggressive (85% / 1,27,500 Loans)	Rs. 1.85 Cr	Rs. 4.15 Cr	Rs. 6.45 Cr	Rs. 8.75 Cr
Optimistic (92% / 1,38,000 Loans)	Rs. 2.20 Cr	Rs. 4.95 Cr	Rs. 7.45 Cr	Rs. 9.95 Cr

Note: In 100% of analyzed scenarios, KisanKavach maintains positive Year 1 EBITDA, proving robust downside buffer.

7. Five-Year Financial Statement & Cash Flow Trajectory

KisanKavach projects explosive, highly profitable growth as it scales from 10 pilot districts to statewide Karnataka ubiquity and subsequent multi-state replication across South India (all figures in Rs. Crores):

Financial Metric (Rs. Cr)	Yr 1 (Pilot)	Yr 2 (KA)	Yr 3 (Scale)	Yr 4 (Reg)	Yr 5 (Nat)	5-Yr Total
Active Farmers Onboarded	1,50,000	5,00,000	12,00,000	25,00,000	50,00,000	50,00,000
KCC Applications Sanctioned	1,05,000	3,75,000	9,20,000	19,50,000	40,00,000	73,50,000
Total Credit Facilitated (Rs. Cr)	Rs. 1,890.00	Rs. 6,750.00	Rs. 16,560.00	Rs. 35,100.00	Rs. 72,000.00	Rs. 1,32,300
1. Bank Loan Origination Fees	Rs. 5.75	Rs. 20.25	Rs. 51.75	Rs. 117.00	Rs. 252.00	Rs. 446.75
2. Bank Branch SaaS Licenses	Rs. 1.20	Rs. 4.65	Rs. 10.50	Rs. 21.25	Rs. 40.00	Rs. 77.60
3. PMFBY & Benefit Fees	Rs. 0.60	Rs. 2.25	Rs. 5.50	Rs. 11.75	Rs. 24.00	Rs. 44.10
4. State Govt DPI SLA Support	Rs. 0.90	Rs. 1.05	Rs. 3.75	Rs. 6.00	Rs. 8.50	Rs. 20.20
GROSS REVENUE	Rs. 8.45	Rs. 28.20	Rs. 71.50	Rs. 156.00	Rs. 324.50	Rs. 588.65
Total Operating Expenses (OpEx)	Rs. 6.10	Rs. 13.80	Rs. 26.50	Rs. 52.00	Rs. 97.50	Rs. 195.90
EBITDA (OPERATING PROFIT)	Rs. 2.35	Rs. 14.40	Rs. 45.00	Rs. 104.00	Rs. 227.00	Rs. 392.75
EBITDA Margin (%)	27.8%	51.1%	62.9%	66.7%	70.0%	66.7%
Depreciation & Amortization	Rs. 0.35	Rs. 0.65	Rs. 1.20	Rs. 2.40	Rs. 4.50	Rs. 9.10
Income Tax Expense (25%)	Rs. 0.41	Rs. 3.44	Rs. 10.95	Rs. 25.40	Rs. 55.63	Rs. 95.83
NET INCOME (PAT)	Rs. 1.59	Rs. 10.31	Rs. 32.85	Rs. 76.20	Rs. 166.87	Rs. 287.82
Capital Expenditure (CapEx)	(Rs. 0.60)	(Rs. 1.40)	(Rs. 3.30)	(Rs. 6.60)	(Rs. 13.50)	(Rs. 25.40)
FREE CASH FLOW TO FIRM (FCFF)	Rs. 1.45	Rs. 9.85	Rs. 31.50	Rs. 73.60	Rs. 159.00	Rs. 275.40
CLOSING CASH BALANCE	Rs. 6.45	Rs. 16.30	Rs. 47.80	Rs. 121.40	Rs. 280.40	Rs. 280.40

8. Return on Investment (ROI) & Systemic Economic Impact

KisanKavach represents a unique convergence of institutional investor returns and massive socio-economic value creation for the agrarian ecosystem of India:

A. Institutional Equity & Venture Capital Returns:

Initial Seed / Pre-Series A Capital Injection	Rs. 10.00 Crore (\$1.2M USD)	Funds pilot hard launch, DPI integrations & regulatory compliance
Year 5 Projected Net Revenue (ARR)	Rs. 324.50 Crore (\$39.0M USD)	Across 50 Lakh farmers and 16,000 participating bank branches
Year 5 Projected EBITDA	Rs. 227.00 Crore (\$27.2M USD)	70.0% EBITDA Margin (Asset-light software/DPI infrastructure)
Enterprise Valuation Exit Multiple	12.0x EBITDA / 8.4x ARR	Conservative comparative to Indian fintechs (Perfios, Zaggie, Lentra)
ESTIMATED YEAR 5 ENTERPRISE VALUE	Rs. 2,724.00 Cr (\$327M)	12.0x Multiple on Year 5 EBITDA of Rs. 227.00 Crore
5-YEAR EQUITY ROI (MOIC)	27.2x Cash-on-Cash	Exceptional capital efficiency and capital appreciation
PROJECTED INTERNAL RATE OF RETURN (IRR)	118.5%	Reflects rapid cash-positive conversion at Month 9
5-Year Cumulative Free Cash Flow Generated	Rs. 275.40 Crore	Enables self-funded national expansion and special dividend capacity

B. Systemic Annual Economic Value Created (Statewide at Year 3):

Beneficiary Sector	Quantifiable Nature of Economic Value	Per Unit Value	Annual Value (Rs. Cr)
Karnataka Farmers	Saved physical travel, lost farm wages, and private documentation agent fees	Rs. 3,500 / farmer	Rs. 420.00 Cr
Karnataka Farmers	Interest rate arbitrage (4% subsidized KCC vs 24% informal moneylenders)	Rs. 36,000 / loan	Rs. 3,312.00 Cr
Banking Consortium	Direct reduction in loan file origination, field survey, and verification costs	Rs. 1,500 / file	Rs. 138.00 Cr
Banking Consortium	Elimination of ghost-borrower fraud and disputed land title NPAs	1.2% NPA drop	Rs. 198.70 Cr
Karnataka Government	Administrative savings, automated grievance redressal, and zero subsidy leakage	Statewide	Rs. 150.00 Cr
TOTAL SYSTEMIC IMPACT	Combined annual economic surplus generated for Karnataka	Transformational	Rs. 4,218.70 Cr

9. Strategic Recommendation & Immediate 90-Day Roadmap (Lead: Sarath Babu Rayaprolu):

KisanKavach represents a rare, defensible institutional opportunity: a high-margin software platform addressing a government-mandated priority sector with zero statutory displacement. With the production web platform live on **kisan.digikavach.net**, Supabase PostgreSQL seeded with 10 Karnataka pilot districts, and a native Android build ready for deployment, the platform is primed for immediate institutional roll-out.

- **State Bankers' Committee (SLBC):** Present verified pilot metrics to anchor partners (SBI, Canara, KVGB, Karnataka Bank).
- **Security Certification:** Complete CERT-In empaneled audit & SOC2 Type II compliance.
- **Capitalization:** Close Rs. 10.00 Cr seed round to accelerate statewide deployment across all 31 Karnataka districts.
